

SIRENA YACHTS 88

€0

Ref: NM644

Location:

Length: 26.81m

The Sirena 88 is a masterpiece. Pure in her philosophy and vision, she represents the master craftsmanship and tradition that all our Sirena yachts exude, yet she is in a class of her own.

She is a true expedition-go-anywhere small yacht in comfort and safety on a dynamically stabilized offshore design. According to the hull characteristics and design; the Sirena 88 is an evolution of her smaller sister the Sirena 64, a low resistance, sea kindly hull, that performs efficiently with a minimum amount of fuel consumption at all speed ranges, including high speed. The maximum speed will be in the order of 25 knots depending on the engine power rating selected among the options offered. Cruising range will be 2100 miles at cruising speed.

Accommodations space is very generous and includes the full width, main deck owner cabin with its own balcony to the sea, plus four en-suite cabins, one of them a very large VIP guest suite. Two formal dinner areas, one "al fresco" on the upper deck and a second on specially designated area on the main deck saloon are featured.

The fully fitted bridge is independent and separated from the rest of the interior accommodations with direct access to a double command on the upper deck. The foredeck it is fitted with special seating/sunbathing area on the foredeck fitted with an optional jacuzzi.

Welcome home!

Germán Frers

Builder	SIRENA YACHTS	Model	88	LOA	26.81 m
